Diaper size update after week 3

- Different brands have their own size ranges based on baby's weight as shown on right.
- We sorted and used the brands with the smallest listed sizes first, assuming actual sizes match listed sizes.
- At 9 pounds, Cyrus can graduate to the smallest size 1 diapers which are the same length but slightly wider than newborn size.

Size	Ranges (pounds)	Ranges (kg)
New-born	6-9 or <10	2.9-4.1 or <4.5
1	6-11, 7-14, 8-14, or <14	2.9-5, 3.2-6.4, 3.6-6.4, or <6.4
2	10-22 or 12-18	4.5-10 or 5-8
3	13-26 or 16-28	6-12 or 7-13

Birth announcement

August 23, 2026

- Cyrus Cesar Morel entered the world as its 8,312,347,060 citizen according to this [population clock](#). He shares that birthday with 363,023 other of earth's citizens but today 174,349 citizens died, giving us 188,674 more fellow citizens to feed, clothe, shelter, educate, and share this nice planet.
- Parents Cesar and Angel Morel welcomed their son weighing 8 pounds 15 ounces (4.1 kg) at 6:03pm born in Orlando.
- Cyrus was named after [Cyrus the Great](#) who was [praised in the Bible](#) as the excellent ruler of Iran 2,600 years ago (600-530 BC). Baby Cyrus was born in August, the month when we honor [Caesar Augustus](#) who ruled Rome from 27 BC to 14 AD. Cyrus may find that Iranians, Romans, Americans, etc. can all live peacefully together if we respect our 8.3 billion fellow citizens plus the new citizens earth welcomes every day.

Diaper supply and demand

- How Many Diapers Do I Need?
They estimated ~10 per day for months 1-2 reducing to ~5 needed for months 6-12.
- Thus baby Cyrus needs $10 \times 60 + 5 \times 300 = \sim 2,100$ for the first year.
- They said to put diapers in a gift registry instead of guests wrapping, bringing, then hauling home, unwrapping, and storing them.

Size	Have	Need
Newborn	90	600
1	712	540
2	338	630
3	400	900
Total	1,540	2,670

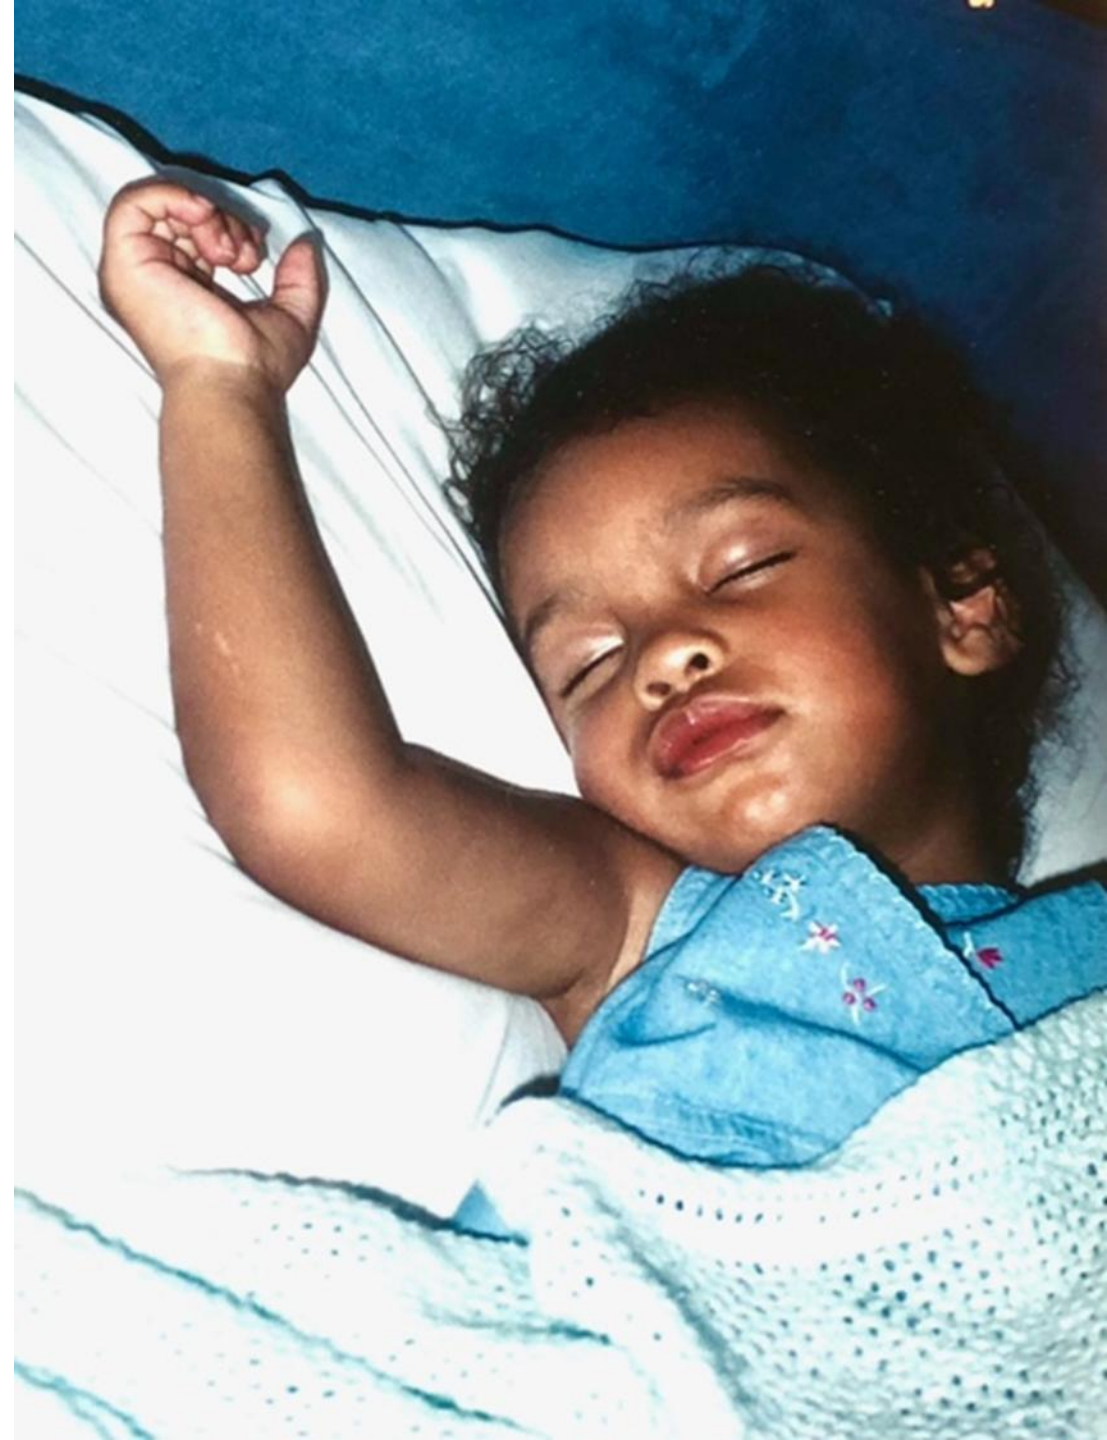

We can trade size 1 for newborn as needed.
